CHICAGO'S ELECTION.

Complete Victory of Republicans in the Western Metropolis.

GEORGE B. SWIFT ELECTED MAYOR.

His Plurality Said to be Close to Forty Thousand Votes—The Republican Candidates for Assessor, Collector and Supervisor Also Elected.

CHICAGO, April 3.—The returns from the municipal election indicate that the Republicans have obtained a complete victory, electing George B. Swift, their candidate for mayor, by a plurality close to 40,000. In addition to the mayor the Republicans have, the returns indicate, elected their candidates for assessor, collector, supervisor and town clerk in all the towns, making a clean sweep of all the town officers.

Of the aldermen, the Republicans have certainly elected sixteen out of the total thirty-four, and claim that they have fully thirty aldermen, but this is very doubtful, the Democrats claiming at least ten of them. Frank Lawler, the ex-congressman who ran as an independent in the Nineteenth ward, is elected by a good majority.

The proposition to put the police and all other city officials under civil service rules and extend the mayoralty term to four years has been carried by a majority very close to that obtained by Swift.

At the last mayoralty election, when Mayor Hopkins was elected to fill the unexpired term of Mayor Harrison, the Democratic plurality was 1,291. At the late state election, in the same wards, the plurality of Wulff, the Republican candidate for state treasurer over Claggett, Democrat, was 14,065.

During a political row at a North Side polling place late in the afternoon Patrick Dalton was fatally shot by his cousin, Jack Dalton. The murdered man attempted to stab his slayer before he was shot.

A St. Louis Election Fatality.

ST. LOUIS, April 3.—The saloon of Louis Cella, candidate for the house of delegates, at Twenty first street and Washington avenue, was the scene of an election murder yesterday. George W. Thorn, a watchman employed at the Madison race track, and who lives in this city, was fatally shot by C. A. Day. Thorn was taken to the city hospital, where it was said he could not live more than a few hours. Day was locked up. The shooting was the result of an election row. Day claims to have fired in self defense.

Wisconsin Elects a Republican Justice.

MILWAUKEE, April 3.—Wisconsin yesterday elected a justice of the supreme court to succeed Justice Winslow, who was a candidate for re-election. His opponent was Judge George B. Clementson, also a candidate on a general call, as no party nominations were made, though Winslow is a Democrat and Clementson a Republican. The vote was light, and the returns indicate the election of Clementson.

PENNSYLVANIA LEGISLATURE.

Farmers Succeed in Defeating the Forestry Commission Bill.

HARRISBURG, April 3.—The bill creating a state game commission was killed in the house on final passage yesterday by the rural members. The bill provided for six game commissioners, to be appointed by the governor, to enforce the game laws of the commonwealth. The commission was to appoint a chief protector and nine other protectors. The defeat of this bill shows that the farmers have enough votes in the house to kill any bill to which they are opposed.

The bill to prohibit the killing of deer in the state, under a penalty of $200, for five years after Oct. 1 next passed finally, after much discussion. The measure repealing the act of 1881 relative to the appointment of police for corporations under the laws of the commonwealth for the propagation and preservation of fish was postponed for the present by its friends, through fear of defeat.

After much debate the bill providing that none but citizens of the United States shall be employed in any capacity on public buildings or public work within the state passed finally, with fifteen votes in the negative.

The Focht free bridge repealer was recalled from the governor. A motion of Mr. Focht to non-concur in the senate amendments providing that the act "shall not require the construction or rebuilding of any bridge or bridges over any river at any point in this state within one mile of the boundary line of any other state" was adopted. The bill now goes back to the senate, the amendments to be stricken out, returned to the house, and then goes to the governor again in its original form.

Confessed to Many Murders.

BIRMINGHAM, Ala., April 3.—Half a dozen members of the worst gang of murderers and robbers ever known in Alabama are in jail as the result of a confession of Lee Harris, who is charged with murdering Pleasant Merriweather, a suburban grocer, with a hatchet and robbing his store a few nights ago. According to Harris' confession he and his pals are responsible for the murder and robbery of James F. Thornton a Birmingham grocer, in December; the murder of E. Y. Daniels, an East Lake farmer, and attempted murder of his wife and daughter last December; the murder of William Barnes, a North Birmingham distiller, because he refused to give them whisky; the holdup and robbery of two white women at Thomas, and numerous minor crimes. Henry Kimberly is now in the penitentiary for some of the crimes confessed by Harris.

His Spotless Reputation Blemished.

FOXCROFT, Me., April 3.—Hon. Elias J. Hale, judge of probate for Piscataquis county, who committed suicide by shooting himself on Thursday last, is now thought to have been a defaulter to the amount of $75,000. Judge Hale had been town trustee for thirty years. Since his death holders of notes in sums all the way from $1,000 to $10,000 have been presenting claims, and it appears that he had hired these sums at different times in the town's name, but the town books contain no records of such transactions. Judge Hale was universally respected and bore a spotless reputation. He was not required to give bond as town trustee until last year.

SLANDERED GERMAN ROYALTY.

Arrest of the Mysterious Individual for Whom Count Von Kotze Suffered.

ALTONA, Prussia, April 3.—A youth who was about to join the army has been arrested here on the charge of being the author of the series of anonymous compromising letters addressed to various members of the imperial family during recent years. The evidence against him, it is said, is conclusive, and it is reported that he has confessed.

The arrest of this young man brings to mind the Von Kotze scandal, which furnished gossip for thousands of tongues. Count Von Kotze was the royal court chamberlain, and the scandal in which he was the principal figure shook Berlin society to its foundations. His arrest in June, 1894, was the result of four years of police investigation. During that period members of the highest German aristocracy were in receipt of anonymous letters and postal cards, making vile personal accusations against them, their relatives or friends. In a number of cases irreparable wrong was done.

Some of the recipients of the slanderous missives placed them in the hands of the police, and as a result Count Von Kotze was arrested. He protested his innocence, although the proof against him was seemingly overwhelming. After his arrest it was thought that the era of scandalous anonymous letters had been brought to a close. It was not, however, and letters making all sorts of outrageous charges continued to be received as before. These last mentioned letters were in the same handwriting as the previous ones, and further inquiries resulted in Von Kotze's innocence being legally established.

Shot Through a Car Window.

ATLANTIC CITY, April 3.—John E. Faunce, ex-speaker of the Pennsylvania house of representatives, was accidentally shot yesterday afternoon while riding from Camden to Atlantic City. The shooting occurred at West Collingswood. John Richardson, Gilbert Hubert and Robert Swain, aged respectively 14, 15 and 16 years, were standing on the embankment next to the railroad shooting birds with an air gun. When the train approached Richardson had the gun at his shoulder, and, according to the story told by him in jail, the bank of earth on which he was standing gave way as the train passed, his arm was jolted and the weapon was discharged. Mr. Faunce was sitting by a window reading a newspaper, and the charge entered his neck below the base of the brain. While the wound is painful, it is not considered dangerous. The boys, who live in Camden, were all arrested.

Alleged Express Thieves Arrested.

JERSEY CITY, April 3.—Herbert C. Harding, aged 28, and Clarence Warbeck, 19, are under arrest here, charged with robbing the United States Express company. Both were employes of the company, and a number of others are implicated. Harding had a systematic method in his peculations. He would remove the directions on packages he stole and put on instead those of the persons who were in league with him. The latter would dispose of the plunder and remit to Harding his share of the proceeds. The stolen articles were given to Warbeck, who would send them off by other express companies. The loss to the company is said to be $25,000.

Insane Asylum Destroyed by Fire.

NEWARK, O., April 3.—The insane department of the Lincoln County infirmary was destroyed by fire yesterday. The fire was discovered by one of the female inmates at 3 o'clock. Superintendent A. F. Larson was at once notified, and with a number of employes immediately set to work to extinguish the flames, but their efforts were unavailing. The wild shrieks of the inmates as they called for assistance were terrible. About thirty insane persons, fifteen men and fifteen women, were confined in the building. All were rescued and removed to the main building, where they were provided with comfortable quarters.

Declared Guilty of Contempt.

TRENTON, April 3.—The chancellor yesterday declared Nelson N. Pidcock, the well known Democratic politician of Hunterdon county, guilty of technical contempt of court in selling a judgment owned by him, after having been ordered to turn the judgment over to his receiver for the benefit of his creditors. Pidcock claimed that the judgment rightfully belonged to his two sons, to whom it was sold for $1. The court suspended punishment for the contempt in order to give him an opportunity to prove title in his sons.

Reported Drowned from His Yacht.

BROOKLYN, April 3.—A report reached here last evening that Millionaire William Ziegler, well known in this city and throughout the country, has been drowned from his yacht Robinson Crusoe while on a cruise off Florida. Mr. Ziegler, in company with William H. Flagler, of Standard Oil fame, left for Florida on March 16 last.

Written Ballots Must be Counted.

SPRINGFIELD, Ills., April 3.—The supreme court of Illinois has handed down an opinion in the celebrated case of Sanner versus Patton, in which the court holds that a voter has a legal right to write the names of candidates upon a ballot, and such ballot must be counted.

VENEZUELA DEFIANT.

She Grants to Americans Territory Claimed by England.

ANOTHER DIPLOMATIC SNARL.

Should Great Britain Attempt to Prevent the Operation of the Concession Uncle Sam May be Obliged to Twist the British Lion's Tail.

FARIBAULT, Minn., April 3.—Donald Grant, a wealthy contractor of this city; W. H. Fisher, late manager of the Duluth and Winnipeg railroad, and J. A. Bowman, a Grand Rapids (Minn.), banker, have just returned from Venezuela, where they obtained a concession of land at the mouth of the Orinoco running 125 miles south and from fifteen to fifty miles east and west. It is rich in minerals, mahogany, rosewood and dye woods. They also have the right to mine asphalt on a small island near Trinidad. The syndicate will invest a good deal of capital in working the concession, and Mr. Fisher is to be the manager.

WASHINGTON, April 3.—There is a great deal more in the news from Faribault of the grant of a concession by Venezuela at the mouth of the Orinoco than is indicated in the dispatch. This concession may become more or less famous in the history of the diplomacy of the United States and Great Britain. The concession is well calculated to bring to an acute stage the most troublesome diplomatic question before the state department, and one which, as stated heretofore, has caused the administration more real concern than the Alliance affair, the late Guatemalan-Mexican dispute and other international episodes.

The concession is in the heart of the territory long in dispute between Venezuela and Great Britain, and Ambassador Bayard for some time has vainly striven, in accordance with a resolution recently adopted by congress, to persuade Great Britain to submit the whole dispute to arbitration, Great Britain being willing to arbitrate only beyond what is known as the Schomberg line. There have been intimations that the administration, in the event of a physical conflict over the disputed lands, might deem it necessary in the enforcement of the Monroe doctrine to follow up the moral aid it has tendered Venezuela with more substantial and potent assistance. The fact that citizens of the United States, by this concession, are thrust, so to speak, between Great Britain and the United States, considerably increases the measure of this country's responsibility.

Senor Andrade, the Venezuelan minister at Washington, when seen concerning the Faribault paragraph, said that he had no official confirmation of the grant of the concession, but added that he does not doubt its correctness, as it is in line with reports that such concessions would be made.

The land included in the concession, he said, is the vital point of conflict between Great Britain and Venezuela. The Orinoco is the great commercial artery of South America, running far inland, through Venezuela, Brazil and other countries. Whoever controls the mouth of the river, Minister Andrade said, will control this great commerce. Great Britain has taken possession of Punta Barina, at the mouth, which is to the Orinoco what the Island of Gibraltar is to the Mediterranean. She has also equipped a naval station on Trinidad Island, just off the mouth. Her claims embrace both banks of the stream at the mouth. It is part of this important strategetic territory that Venezuela now grants the United States citizens. The concessions near Trinidad Island is believed to be the Island of Palos. It is very near to the British naval station, and particularly rich in asphalt.

The present concession is the most emphatic declaration of ownership Venezuela has made since 1884. In that year a concession was made to Messrs. Fitzgerald and Turnbull, citizens of the United States, of part of this Orinoco territory. It was about to be operated by a United States company known as the Manon company, when Great Britain entered such an emphatic protest that Venezuela cancelled the concession. Since then the conflict between Great Britain and Venezuela has been waged through diplomatic channels. Now Venezuela reasserts her rights, and turns them over to United States citizens. The interesting question thus arises whether Great Britain will endeavor to prevent the United States syndicate from operating its concession.

Another Big Steel Mill.

LORAINE, O., April 3.—The fires were started Monday night in the big steel mill of the Johnson company, at this place, the construction of which was begun nine months ago. This was simply a test of the big furnace which is to convert pig iron into Bessemer steel. The test was successful, ten tons of steel being poured from the blast yesterday. The machinery will be set in place as soon as possible.

New Jersey State Education Board.

TRENTON, April 3.—The state board of education, at its annual meeting in the state house yesterday, approved the report of the state school census and apportioned school moneys to various counties. These officers were elected for the ensuing year: President, James L. Hays of Newark; vice president, James M. Seymour of Newark; treasurer normal and boarding school, J. Bingham Woodward of Bordentown.

Diamond Cutter Von Reeth Released.

WASHINGTON, April 3.—Late yesterday afternoon Commissioner Stump, of the emigration bureau, ordered the discharge of Franz Von Reeth, the Antwerp diamond cutter detained at New York by the local immigration authorities as an alien contract laborer.

More Indictments Against Howgate.

WASHINGTON, April 3.—The grand jury yesterday returned three indictments against Captain Henry W. Howgate for forgery and embezzlement.

DEATH OF EDITOR STONE.

The Veteran Journalist Whose Paper Was Suspended by President Lincoln.

NEW YORK, April 3.—David M. Stone, who for forty-four years was editor of the New York Journal of Commerce, died last night at his home in Brooklyn. His death resulted from a complication of heart troubles, after an illness of about a month. Mr. Stone was a native of Connecticut, and was 77 years of age.

An important event in the history of The Journal of Commerce was its suppression

by the government, in 1864, and the arrest of some of its editors, for publishing a proclamation, purporting to have been issued by President Lincoln, calling for volunteers to serve in the war and appointing a day for fasting and prayer. The proclamation had been left at the newspaper offices about 3 o'clock in the morning, after the responsible editors had departed. The government, learning of the mistake, withdrew the troops from the newspaper office and the editors were released from prison and the paper from suspension.

GIANT POWDER EXPLODES.

The Fate of Two Men Imprisoned in a Mine as Yet Unknown.

PRESCOTT, Ariz., April 3.—One hundred pounds of giant powder exploded in the Ohio mine of the United States Mescal Mining and Milling company late yesterday afternoon. The mine is located nine miles from Prescott, and the particulars are very meager, as the courier left immediately after the explosion to secure medical aid for the five men who were working in the drift where the powder was stored. Three men had been rescued seriously injured, James Newlin, the foreman of the mine, being the most seriously hurt. The explosion caused a cave of 100 or more tons of rock, and whether the other two men were killed and buried beneath the debris or in the drift behind the cavein of rock could not be determined when the messenger left. The miners set at work immediately to remove the rock from the drift to reach the imprisoned or buried men.

The Nicaragua Canal Commission.

WASHINGTON, April 3.—It was expected that the cabinet yesterday would select the members of the Nicaragua canal commission, but the subject was not considered at the meeting. Not one of the three commissioners has yet been selected. Secretary Herbert has recommended the appointment of Civil Engineer Endicott as the naval representative, but Secretary Lamont has not presented the name of an army engineer, and no determination has yet been reached as to the civilian member. It is said at the White House that the appointments probably will be made during this week.

A Maryland Forest Fire.

BALTIMORE, April 3.—A destructive forest fire has been raging in Anne Arundel county, Md., since Sunday. Beginning at Marley bridge, which spans Marley creek, the flames swept over 600 acres of timber land belonging to the Curtis Creek Mining and Manufacturing company and Thomas A. Crowell and Osborne P. Humphrey. No buildings of importance have been burned, although the town of Glen Burnie was threatened. The residents and a fortunate change of wind saved the village from destruction.

Mexico-Guatemala War Averted.

CITY OF MEXICO, April 3.—The Guatemalan boundary question is settled. President Diaz has formally signed with the Guatemalan ministry the official document which prevented the threatened open rupture between the two countries, and congratulations are heard on all sides for the stand taken by the president, Foreign Minister Marisal and Mexicans generally at a time full of danger and menace to the nation's safety and dignity.

Big Sugar Refinery Shuts Down.

NEW YORK, April 3.—The Havemeyer & Elder sugar refinery in Brooklyn has closed down temporarily. Secretary Searles, of the American Sugar Refining company, would not state the reasons, but it is given out from reliable sources that the shutdown was due to overproduction and stagnation in the trade. It was also stated that other refineries in the company would follow suit for the same reasons.

Anti-Semite Gains in Austria.

LONDON, April 3.—Special dispatches from Vienna all dilate upon the alarm caused by the victory of the Anti-Semites in the municipal election, they having gained a dozen seats from the Liberals. The result of the election had a depressing effect on the boerse, as it is supposed that the Anti-Semite gains herald similar victories in the elections for members of the reichsrath and provincial diets.

Hovas Expel French Merchants.

BERLIN, April 3.—The Tageblatt publishes a telegram stating that the Hovas, the ruling tribe of Madagascar, have expelled the French merchants from Morondava. The French squadron, co-operating with the land forces, has captured Marovony, Lispisca, Mahambo and Belziboka. The Hova commander-in-chief was killed. There were no casualties among the French forces.

MISRULE IN NEW YORK.

Mayor Strong's Pertinent Message to the Board of Aldermen.

INCREASED BONDED INDEBTEDNESS

The Mayor Declares It "the Result of a System of Financial Jugglery Practiced by the Previous Administration" to Defer the Issuing of Bonds.

NEW YORK, April 3.—Mayor Strong sent a message to the board of aldermen yesterday showing the financial condition of the city. He said there was a big excess in the budget over previous years, and alleged that this was due to a system of financial jugglery practiced by previous administrations. In the park department, he said, $1,000,000 were expended under the guise of helping men who were out of work. The mayor said that every technical subterfuge was adopted by the previous administration to dodge the issuing of bonds in order to force this duty on the administration of 1895.

Following a statement of the city debt and a list of public improvements for which bonds must be issued the mayor says:

"The question of affairs as herein presented, and the consequent increase of bonded indebtedness that must be shown against the city at the close of this year is attributable to the result of a system of financial jugglery, practiced by the previous administration in an apparent endeavor to mislead the public into the innocent belief that, knowing the liberal and perhaps wasteful expenditures on special accounts during the year, particularly by the park department under the $1,000,000 act, ostensibly to give work to the unemployed, that the debt of the city had not been increased to the proportions that the statements herewith submitted indicate, and with such delusion seek to produce a political as well as a hoped for beneficial moral effect, and leave to the future the realization and burden of the actual condition of the financial affairs of the city.

"An examination of the statements, as submitted by the comptroller, justifies the belief that every technical subterfuge was availed of to defer authorizing the issue of bonds or to defer issuing them after they were authorized in 1894, leaving their issue and the responsibility of the same, and the consequent increase of the bonded indebtedness, to fall upon the administration of 1895."

The mayor also speaks sharply of mandatory legislation which increases the city debt, and goes over the history of assessments of corporations which kept up assessed values, but many of which were set aside by the courts.

Under date of March 14 the comptroller transmitted to the mayor a statement showing approximately the liability of the city for public works and improvements, which on Jan. 1, 1895, still remained to be paid out of the proceeds of bonds then unissued. The total amount for which the city was liable on that date was $19,379,660.68.

The mayor makes no recommendations whatever, but simply says that he sends the message for the information of the board and the public.

Bodies of Drowned Men Recovered.

SNOW HILL, Md., April 3.—The bodies of William T. Birch and Charles Hudson, two of the three men who were drowned while trying to sail across Sinepuxent bay last January in the face of the worst storm ever experienced in that section, were recovered near here on Monday. Relatives of the dead men have been searching for the remains for ten weeks, and have dragged the bay for many miles around the scene of the accident, yet the bodies floated ashore directly opposite where the men were drowned.

Verdict Against a Railroad.

TRENTON, April 3.—A jury in the United States district court here gave a verdict for $15,000 against the Delaware, Lackawanna and Western railway, in the suit of Christopher Arnold, of Newark. The plaintiff was one of the many who were injured in the rear end collision which occurred on the Hackensack meadows on Jan. 15, 1894, when thirteen people were killed. Arnold lost his leg and sued for $75,000. Several similar cases will be tried at this term of the court.

The Blue and the Gray to Fraternize.

ATLANTA, April 3.—On Saturday night the soldiers who wore the gray and those who wore the blue will meet together in friendly intercourse at the headquarters of the Grand Army Post in Atlanta. Commander-in-Chief Lawler, of Rockford, Ills., with his staff, is visiting the different departments of the G. A. R. in the United States, and will reach Atlanta on Saturday.

Had Been Stealing for Years.

WINONA, Minn., April 3.—The rumored shortage in the accounts of George C. Scott, late treasurer of the Mississippi River Logging company, is now definitely known. The deficit already discovered amounts to $22,000. It is said Scott's peculations have been carried on for several years.

ALLENTOWN, Pa., April 3.—Mrs. Bennerville Roth, mother of Revs. Benjamin and M. J. Roth, of Millersville and Summit Hill, respectively, committed suicide by hanging herself at her home near Rockdale yesterday afternoon. Mental anxiety was the cause of the deed.

A Fatal Faint at the Polls.

May Dissolve the Glass Trust.

PITTSBURG, April 3.—Prominent manufacturers connected with the National Window Glass Manufacturers' association announce that a meeting of the association will be held here this month, and that the combination will probably be broken at that time. One of the manufacturers stated that the chances against the organization were ten to one. It is said the formation of the combine has advanced prices enough to put the glass business on a sound footing, and some of the larger concerns now want to operate independently.

Ex-Governor Charged with Embezzlement.

SAN FRANCISCO, April 3.—A warrant was issued for the arrest of E. S. Solomon, at one time governor of Wisconsin and later governor of Utah and a prominent Grand Army of the Republic man, who is charged by Mrs. Lydia Virgil with felony and embezzlement. She alleges that Solomon had $1,250 of hers, which he collected for her in real estate dealings. Solomon says Mrs. Virgil has held his note for the amount for some years, and that he has paid her more interest than the principal amounts to.

A Millionaire's Son Turns Burglar.

PEORIA, Ills., April 3.—Julius Schwalbacher, son of the millionaire distiller, who a year ago was caught robbing the residence of Mrs. Frank Bell, was found guilty, and his punishment fixed at five years in the Joliet penitentiary. The defense set up the plea of insanity, assigning as a cause therefor too much drinking and smoking cigarettes. The defense entered the usual motion for a new trial.

Two Drowned in the Monongahela.

PITTSBURG, April 3.—By the upsetting of a skiff, either by accident or the result of a drunken row, two young men, supposed to be John Brotia and Thomas Grogan, both residents of this city, were drowned in the Monongahela river. The two men, with George Wolfe, John McManus and William Ford, started to cross the river in a skiff, and when some distance from shore the boat capsized and Grogan and Brotia were drowned. The three men rescued were locked up until the police investigate the matter, as they all tell conflicting stories of the accident.

The Indiana Legislative Riot.

INDIANAPOLIS, April 3.—The county grand jury has begun an investigation of the riot that took place in the state capitol on the closing night of the session of the late legislature. Michael Cain, engineer of the building, told the story of the struggle in the elevator between himself and Secretary King on one side and Representatives Allen, Adams, of Park, and Boardman on the other. He told the jury that if he had not struck Adams, of Park, and forcibly taken the elevator lever from him Secretary King would have been crushed to death. Myron D. King, the governor's private secretary, will be asked to tell his story to the grand jury. Representatives Adams and Allen are also invited to appear.

Sugar Kings Want an Early Trial.

WASHINGTON, April 3.—Nathaniel Wilson, counsel for Henry O. Havemeyer and John E. Searles, asked Judge Cole to set an early date for trial of his clients indicted for refusing to testify before the sugar investigating committee. Judge Cole would not fix a date without the consent of the district attorney, Mr. Birney. The latter says that he expects to call the first case the last of April or the first of May, and the trials will take place in the order in which the men were indicted, the brokers first, then the newspaper correspondents and lastly the officers of the sugar trust.

Mrs. Williams Held for Murder.

COLUMBUS, O., April 3.—Mrs. W. H. B. Williams, who murdered two of her children at the Park hotel on Monday, was arraigned in police court on two charges of murder in the first degree. She waived examination and was ordered held without bond to await the action of the grand jury. Mr. Williams was released by order of the coroner, and the little daughter, Annie, was placed in care of a friend of the family. Mrs. Williams says the only reason she can give for murdering her children is that she did not want them to suffer at the hands of their father as she had suffered.

His Injuries Prove Fatal.

PHILADELPHIA, April 3.—Samuel Dutton, the Chester county farmer who was found lying badly injured early on Sunday morning on the front pavement of the house 1,219 Kater street, died yesterday at the Pennsylvania hospital, and Josephine Ivverson, in whose apartment he had been staying previous to the accident, is in Moyamensing prison pending an investigation by the coroner that will determine whether or not she was responsible for the occurrence. Dutton declared that he fell from the window accidentally.

Secretary Gresham to Remain.

WASHINGTON, April 3.—A most positive denial of the story that Secretary Gresham intends to resign is given by a cabinet officer whose relations with the secretary are of such a nature as to make him perfectly competent to make this denial. It is also learned that Secretary Gresham has just made arrangements for the extension for another year of his lease of the rooms at the Arlington now occupied by him which may certainly be taken as an evidence of his intention to remain in Washington.

Li Hung Chang Rapidly Recovering.

YOKOHAMA, April 3.—Advices from Shimoneseki show that Li Hung Chang's wound in the face is healing well, and that it is expected that he will be in the enjoyment of complete health in a few days, when he will again attend the peace conference. Cholera at Port Arthur continues to increase.

Sciatic Rheumatism Cured.

L. Wagner, Wholesale Druggist Richmond, Va., says: "I had a fearful attack of Sciatic Rheumatism, was laid up almost two months; was fortunate enough to get MYSTIC CURE FOR RHEUMATISM. This cured me after doctor's prescriptions had failed to have any effect. I have also heard of fine results from others who have used it." Sold by J. E. Mills druggist, Middletown, N. Y.

The rapidity with which croup develops calls for instant treatment; and yet few households are prepared for its visits. An admirable remedy for this disease is Ayer's Cherry Pectoral. It has saved hundreds of lives and should be in every home where there are young children.

Jabez Balfour to be Extradicted.

BUENOS AYRES, April 3.—A federal judge has ordered the Salta government to deliver Jabez Spencer Balfour, whose extradition Great Britain has long been trying to obtain, to the British legation in this city. As quickly thereafter as possible he will be taken to London to answer the charges made against him in connection with the collapse of the Liberator Building society and allied concerns, the failure of which ruined thousands of persons who had invested their all in the different companies. At the time of his flight from England Balfour was a member of parliament.

Trolley Collision Near Gloucester.

GLOUCESTER, N. J., April 3.—Two trolley cars of the Camden, Gloucester and Woodbury railway collided at the entrance to Newton creek bridge yesterday. The cars were badly smashed and several passengers injured. D. W. Pierce, of Cramer Hill, had an arm broken, and the others received less serious injuries.

The Presidential Family at Woodley.

MADRID, April 3. — The governor of Havana telegraphs that tranquility prevails in five of the provinces of the Island of Cuba. The insurrection is confined to the province of Santiago, where the rebels have retired to the mountains and are awaiting reinforcements.

NEAR THE DANGER LINE.

Press Opinions of England's Attitude Toward Nicaragua and Venezuela.

It is possible, however, that the demand made by Great Britain on Nicaragua is excessive, and if enforced to the letter would in effect annihilate the sovereignty of that republic and erect upon its ruin a monarchical establishment which under a fair construction of the Monroe doctrine would be repugnant to the determination of the people of the United States not to permit any republican form of government on this continent to be overborne by and supplanted with a foreign monarchy.—Chicago Times-Herald (Dem.).

There is little room for question that Great Britain's demand for heavy indemnity from Nicaragua, coupled with her persistent encroachments on Venezuelan territory, presents more serious cause for international difficulty than any with which the United States has been confronted since the French occupation of Mexico.—Indianapolis Sentinel (Dem.).

Here is a distinct effort for territorial acquisition on the American continent, a movement which flies directly in the face of the Monroe doctrine.—Philadelphia Press (Rep.).

It appears that Great Britain in forcing settlement with Nicaragua is pretty close to the danger line. While the British government is insisting on Nicaragua's doing the impossible, it is badgering Venezuela into a new boundary settlement.—Chicago Inter Ocean (Rep.).

If diplomacy does not succeed in reaching an amicable adjustment of the existing differences, the United States will be forced to the alternative of surrendering the principle involved in the so called Monroe doctrine or defending it by force of arms.—Detroit Free Press (Dem.).

It is not for us to interfere to protect Nicaragua from the consequences of the blunders of her own officials. If they have really affronted Great Britain, there is nothing for Nicaragua but to make the best settlement possible with that power and obtain as easy terms as can be got.—Springfield Republican (Ind.).

Great Britain's intention to defy the settled policy of the United States is clear, and she ought to be firmly notified that she had better abandon that intention.—Baltimore American (Rep.).

Meanwhile the Monroe doctrine is American doctrine, and as such it must be maintained and defended.—Boston Globe (Dem.).

A BOON TO THE BLIND.

Miss Stockman's Newly Invented Patterns Likely to Be Very Useful.

Miss Marie Stockman of Germany, who is said to be now in this country, has recently patented a series of printed designs in raised type, by means of which workers who are blind are enabled readily to count the stitches and to determine the colors needed for any special pattern. In fact, these designs are much the same as those with which we are familiar in Berlin wool work, cross and Gobelin stitches, the small blocks forming the design being raised and molded in various ways to mark the varieties in color. If canvas in one of its many forms be chosen, or any other material having a raised thread which the worker can count by sliding the finger or needle across it, an intelligent person will, with a little preliminary guidance, soon be able to work cross, flat, long and short, tassel and Gobelin stitches with due attention to colors and shades of color. It will then be open to her to make borders suitable for portieres, mantelpieces, besides cushions, rugs and smaller articles of many sorts. Hitherto, though many of the blind seem to have an extra sense to enable them to distinguish color by the feel of the wools and silks, they can only work with the teacher at hand to tell them the number of stitches to be worked with each tint, and the introduction of these raised patterns should prove a great help.

ELECTRIC RAILROAD.

New England Proposes to Run a Long One Into Canada.

New Englanders propose to get out of electricity all the cost there is in it as a motive power. There are numerous waterfalls among their hills and mountains, the force of which they propose to utilize in generating power to run a railway from Haverhill, Mass., through to Quebec, a distance of nearly 300 miles. If built, this road will be the most picturesque in the world. The proposed road will traverse the whole of the White mountain region of New Hampshire, and after leaving it will strike into the wild and picturesque ruggedness of the province of Quebec. Of the entire length of the road, 180 miles will be on the United States side of the international boundary line, the remaining 100 miles being under the jurisdiction of the Canadians.

Little freight could be expected to pass over such a road, and the bulk of the passenger traffic would be confined to the summer months. Indeed it is doubtful if such a road could be operated at all during the winter season. Possibly somebody connected with the enterprise may prove sufficiently ingenious to provide some kind of runner which could be exchanged for wheels and which could be operated by electricity, so that the cars could glide over the surface of the snow. It is said, though, that the road could be built and operated so inexpensively that a good summer travel would be sufficient to pay satisfactory returns on the outlay. The proposal to construct such a road is likely to arouse a good deal of interest.—Chicago Post.

ORIGINAL LOVEMAKING.

How Harry Wack, a Newspaper Man, Won Miss Yaw, the Singer.

The story of how Harry Wack, the newspaper man, won Miss Yaw, the singer, is delightfully new. Mr. Wack tells it himself. Mr. Wack did not follow the conventional paths in his lovemaking. He struck out after an original method of his own. Mr. Wack met Miss Yaw. He liked her voice, her personality, her splendid mind. She asked him to write some articles on psychology and similar subjects. He wrote them. She liked them so well that she proposed that they exchange 100 essays on interesting topics. They did it. About the time the essays were finished—or before—they were engaged. I should like to read those essays seriatim. They would tell the story. I opine that the first ones dealt with the subjects in hand in a strictly scientific fashion. Later on they commenced to take on the bright tinge of love. I fancy I can see Wack writing essay No. 53 with a tender light in his eye. There was a message in every line. Wack didn't care about the prosy subject he was treating. He was thinking of the bright eyes for which the essay was intended. Essays 98, 99 and 100 must have been complete love stories in themselves.

Here's to Wack and his essays. He is one of the brightest young men in literature, and it can be said of him that he has written the most powerful essays of the age.—Atlanta Constitution.

Tom Reed a Linguist.

If by any lucky stroke of fortune Tom Reed should happen to become president of the United States, he will probably be the first accomplished linguist to occupy that office. Mr Reed is passionately fond of the study of languages. Some years ago he took up French, and during the Fifty-first congress, while acting as czar over the house of representatives and passing through parliamentary storms of cyclonic severity, found time three days a week to go to a school of languages for his lesson in French. Later he took up Italian and is now able to converse fluently in that language. At the present time he is studying Spanish, and if the movement to annex Cuba to the United States should succeed during Mr. Reed's hoped for regime he will have in his command of this tongue a convenient accomplishment.—Chicago Times-Herald.

In the right hand margin of the page, under the heading of "Remarks," some one has made the following explanatory note: "Fell in a duel with Colonel Aaron Burr, Wehauk, N. Jersey, on the 9th July; interred at the expence of the Corporation of the City of New York."—New York Commercial Advertiser.

Mistaken Mercy for a Chicken Thief—Many Tramps and the Fate of Three of Them—Personal and Local Notes.

Correspondence ARGUS and MERCURY.

—Charles Daily, a character who lives just south of this village, while driving home from East Coldenham with one of C. H. C. Beakes's mule teams, stopped at Coldenham, Saturday evening. He left his team standing and went to the hen roost of Mr. George Kernochan and stole a few fowls, and, not being satisfied, proceeded across the road to Mr. Samuel Renwick's hennery, from which he took some choice Brahmas. Mrs. Renwick happened to be sitting up stairs at a window and saw Daily enter and return from Mr. Kernochan's chicken house, while Mr. Kernochan by luck witnessed the stealing of Mr. Renwick's poultry. A warrant was obtained in this village later in the evening, and Daily was arrested by Officer Pitts and placed in the lockup. On Monday morning, Mr. Renwick withdrew the charge upon Daily's promise to leave town. This action is regarded as a great mistake, as Daily has served terms in Poughkeepsie and Goshen jails, and to get a good grip on a crime like this and not prosecute it appears more merciful than just.

—How do you like your new house?

—Mr. Harry Ward left here, Monday morning, for his former home in Jersey.

—Six tramps applied to Poormaster G. M. Legg for lodging, on Monday evening. Three left town for fear of being arrested, while the other three put up at the "hotel de la tramp."

—Three tramps were arrested for vagrancy by Officer Pitts, Sunday evening, and placed in our station house. The next morning, when arraigned before Police Justice Eager, they pleaded that they were "looking for work." He sentenced two of them, Daily and Myers, to one month in the county jail, while the other, Heuston, will sojourn at the county seat for three months.

—John King, who has not long been out of jail, where he served a term for being drunk and disorderly, was arrested by Officer Pitts on the same charge, at the Flannery mansion on Goodwill street, Monday evening, and placed behind the bars in the police station.

—The new barn of Mrs. E. H. Miller, on Charles street, is nearing completion.

—There was an unusual amount of moving in and near this village, this spring.

—The new town hall is rapidly progressing, work having been commenced on the building on Friday morning.

—Mr. George H. Young, of the *Standard* office, has just finished painting a sign on the meat wagon of Slaughter & Barton, of Campbell Hall. The workmanship is very artistic and is a credit to the artist.

—The roads hereabouts are in fine condition.

Two Lives Saved.

Eggers, 139 Florida St. San Francisco. suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. REV. I. W. HILL.

Pastor Methodist Church, Accord, N. Y., Says Cancerous Diseases Can be Cured.

ACCORD, N. Y.—Under the old school method it was believed that any disease of cancerous growth could never be cured. The surgeon's knife was resorted to, but the old trouble was sure to break out again.

Since the discovery of Dr. Kennedy's Favorite Remedy, all this has been changed—the action of Favorite Remedy upon the system leaves no trace of poison in the blood, the seeds of disease are expelled and lost health restored.

A notable case of the efficacy of Dr. David Kennedy's Favorite Remedy is that of the Rev. I. W. Hill of this town. Some years ago he was suffering with a cancer of long standing, on his lip, and finally concluded to have it removed. In speaking of his case, Pastor Hill said: "About three weeks previous to having the operation performed, I purchased Dr. David Kennedy's Favorite Remedy and continued taking it for some time after the cancer was removed Ten long years have passed since then and no trace of the ugly thing has returned. I speak with knowledge in the highest terms of Dr. Kennedy's Favorite Remedy as being able to cure the troubles for which it is prepared."

One of our local physicians said, in explaining the demand for Dr. Kennedy's Favorite Remedy: "It acts as a nerve and blood food, and to my knowledge it has made many permanent cures of Nervous Debility, Sleeplessness, Dyspepsia, Rheumatism and of the sickness peculiar to women, where other treatments have failed. For headaches, constipation and the run down condition, one often suffers with, there is nothing else so good."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature to do its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials. Address,

C. F. ROBINSON, - - - CITY EDITOR
A. E. NICKINSON, - BUSINESS MANAGER

WEDNESDAY, APRIL 3, 1895.

In Columbus, O, the Republicans, fearful of the result of the election, caused the nomination of an independent Democrat as a "reform" candidate for Mayor, expecting that he would draw enough Democratic votes to insure the election of the Republican. For once, however, Democrats did not take the "reform" bait, but gave their regular candidate a hearty and united support, while over 2,000 Republicans voted for the "reform" Democrat, the result being the election of the regular Democrat by over 2,000 plurality.

The new constitution, adopted last fall, is already plaguing its makers. The civil service section, which declares that appointments and promotions in the civil service of the State shall be made according to merit and fitness, to be ascertained by examinations, which, so far as practicable, shall be competitive, is the latest stumbling block. Aldridge, the new Superintendent of Public Works, has been cutting off Democratic heads at a very lively rate, but Controller Roberts doubts his right to pay the Republicans appointed to succeed Democrats. He asked the opinion of the Attorney General, and that official, more anxious to give an opinion satisfactory to the Republican leaders than in accordance with the constitution and the law, decided that the constitution was not operative until there had been legislation to give it effect. Not satisfied with this free and easy interpretation of the State's organic law, Controller Roberts asked the opinion of Elihu Root, the Republican leader in the Constitutional Convention, who has advised him that the constitutional provision in regard to the civil service is operative and in effect, and that no legislation can give it added force.

BEFORE THE RECORDER.

Knocked Out by Middletown Whiskey —Sent to Jail for Keeping a Disorderly House.

—A sixty-five-year-old resident of Slate Hill came to town, yesterday, missed his train home, and loaded up with applejack. When picked up by the police he still had in his possession two pint bottles full of the whiskey. He was utterly helpless, and this morning the effects of his debauch were painfully evident. While he could not understand why he could not understand why a fine of three dollars should be imposed, he paid it, and left court without asking for the return of his whiskey.

—Helen Little, a woman fifty years of age, who has served a term in Albany for keeping a disorderly house, was this morning sent to Goshen jail for sixty days, for a similar offense. The complainant was a sixteen-year-old inmate of the house, who gave her name as Kittie Morris and her former home as Franklin, N. J. Kittie went out, Sunday afternoon, and on her return to the house on Fulton street, near Canal, she claims she was set upon by Mrs. Little and her sons and that she was badly knocked about by them. She got away from the house and entered a complaint against Mrs. Little, who was arrested, yesterday afternoon, and spent last night in the lockup, in default of $100 bail. The girl told of her shame in a most brazen manner and showed an utter lack of consciousness of her deplorable depravity. Mrs. Little, through her counsel, Herbert Gedney, Esq, pleaded guilty to the charge and threw herself upon the mercy of the court.

—Ellison B. Jacobus was fined $3 for intoxication. He was arrested under a more serious charge, which it was not deemed advisable to press.

Turner was elected President. The directors are William B. Scott, John W. Moffly, Joseph F. Sinnott, W. W. Gibbs, W. W. Kurtz and Simon Pfaelzer.

Only Hood's

True Blood Purifier

In the Public Eye Today

Middletown Druggists

Give a Verdict For

Hood's Sarsaparilla

Now is the Time to Take a Good Spring Medicine.

Hood's Sarsaparilla is the only true blood purifier. The truth of this statement is abundantly proved by the testimony of druggists and dealers who have handled Hood's Sarsaparilla in Middletown for years. Hood's Sarsaparilla is, therefore, the best and the standard spring medicine and its importance to the health of this community, by reason of its general use and because of its power to purify the blood and thus prevent and cure disease it is simply impossible to estimate. Read this testimony:

"In my opinion the excellent sales of Hood's Sarsaparilla indicate that it possesses real merit. My patrons commend it strongly as a blood purifier and general tonic. I have no medicine giving better satisfaction." J. E. MILLS, 3 Empire Block, No. Main St., Middletown, N. Y.

"I sell more of Hood's Sarsaparilla than all others combined many times over. So far as my customers are concerned Hood's Sarsaparilla gives good satisfaction. If it did not they would not come back and want the second, third and fourth bottle as many of them do. It is the kind that sells every day in the week with us." D. W. EVERSON, 16 West Main St., Middletown, N. Y.

"My sales of Hood's Sarsaparilla last year were larger than any preceding year and I am satisfied that there is no better blood medicine on the market. Its curative blood purifying properties are wonderful and there is no substitute for Hood's Sarsaparilla. The fact that customers insist upon Hood's Sarsaparilla is evidence of its merit." W. D. OLNEY, 4 East Main St., Middletown, N. Y.

"We sell Hood's Sarsaparilla right along. People claim it to be the best and cheapest medicine on earth. As a blood purifier it has no equal. The pertinacity with which my customers insist upon having Hood's Sarsaparilla is the best evidence of its popularity and merit." F. M. PRONK, Main and North Sts., Middletown, N. Y.

CARPET TALK.

Talk is cheap, but it takes money to buy carpets; but what we want to impress on the minds of the readers of this paper is that it does not take much money to buy your carpets from us, this spring. When you can buy a 1st-class Smith's Moquette for $1 per yard, and the 2d quality for 75 cents, the very best 5-frame Body Brussels for $1, and all other grades in proportion, it seems as if every one ought to have a new carpet this spring. You will be more convinced of this when you see our new spring styles. Our line of Axminsters are "out of sight." We never before showed such a line of carpets in the 22 years we have been in business.

LANA OIL COMPLEXION SOAP.

There are good soaps and poor soaps—some high priced soaps are good, others are poor. Lana Oil Complexion Soap is essentially good; for a good soap it is especially low priced.

Lana Oil Complexion Soap contains Lana Oil, Buttermilk and Glycerine. It is made in part from Oil derived from Lamb's Wool which is acknowledged to be the best preservative of the tissues, removing the wrinkles from the skin and leaving it soft, pliable and elastic.

It is new in this section—largely used by Chicago belles, who know a thing or two. We had to buy a large quantity to get it at a right price—now we can sell it at 10 cts. a cake (25 cents for three cakes) It is the prettiest cake of soap in the market—try the quality for yourself.

Multiplied our soap sales several times under new methods!

Cuticura Soap? Same old price, 15 cents.

Some good soaps 5 cents. Not a cake of soap from a questionable source in our stock.

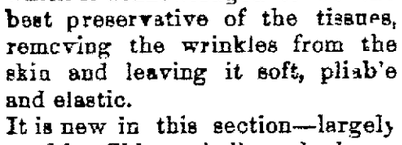
Ladies' Kid Gloves.



If present indications are correct,

White and delicate Lemon or Canary colored gloves will be more extensively worn this season than ever before. We long ago observed the trend of popular favor, and accordingly prepared an assortment of these gloves that is not surpassed, Canary color, stitched and finished with black, has superseded pearl-white kid for demi-toilette occasions. We also have them in self stitching, but the black is more in favor. The buttons of all the smart gloves, whatever their color, are the mother-of-pearl, colored to harmonize with the gloves.

THE DARWOOD CASE.

A Grand Compromise Effected—Charges Against Mrs. Royce and Those Against Dr. Darwood to Be Withdrawn.

The wildest flight of the imagination could not have conceived such an outcome of the Darwood case as is reported from Kingston, by special message to the ARGUS, this afternoon.

A grand compromise has been effected. The charges against Mrs. Royce are to be withdrawn and she is to be restored to full membership. In return for this Rev. Mr. Dewey, Mrs. Royce's father, is to withdraw the charges against Dr. Darwood, unless Dr. Darwood objects, which is hardly probable.

This arrangement is all right so far as it affects Mrs. Royce and Dr. Darwood. It puts them both, in fine shape, so far as the church is concerned. But in what shape does it leave the church?

No formal action was taken by the Conference in the matter, to-day. The case will come up to-morrow.

THE DELAWARE VALLEY RAILROAD.

Capt. Rockwell's Offer for the Franchise a Conditional One.

Capt. Rockwell says that the announcement that the Rockwell Construction Company has bought the Delaware Valley Electric road franchise is premature. He has made an offer for the property, which is conditional upon the receivers settling the claims against it, which amount is very much more than the sum named in his proposition.

If the Rockwell Company builds the road it will be built under the steam road charter, with heavy rails and equipment, so that locomotives and heavy freight cars can be run over it if necessary.

Receiver M. F. Coolbuaugh, Mr. Eilenberger and Judge Storms, the company's attorney, were in town, to-day, in consultation with Capt. Rockwell and insisted that his company should take the property.

RUN DOWN BY A BICYCLE.

A Boy While Violating a City Ordinance Knocks Down and Injures a Lady.

This forenoon, a lady whose name we were unable to learn, was knocked down on John street by a bicycle ridden by a boy named Edwin Sayer. The lady was on the sidewalk at the time. She received a cut in the face and another on the hand. She was taken into the auction room and it was some time before she recovered sufficiently from the shock to proceed on her way.

There is an ordinance against riding a wheel on the sidewalk, and it should be enforced.

A Runaway.

Two horses, one each from the teams of Carmen Pierce and Grier were hitched to a wagon to haul a safe to the Low building, this morning. While standing in front of the building, they started to run and turned into Orchard street where the wagon collided with a vehicle driven by Martin Hart and both of the runaway horses were thrown down. They were caught before they had regained their feet. Very little damage was done.

Wants $5,200 Damages from the Village of Port Jervis.

Mrs. Annie Murray, through her attorney, H. B. Fullerton, has presented a claim of $5,200 for damages for injuries alleged to have been sustained by falling upon an icy sidewalk on January 31st.

"THE GEORGIA WONDER."

Mrs Abbott Gives a Private Exhibition of Her Wonderful Powers at Dr. Pillsbury's—No One Able to Account for Her Remarkable Feats—Public Exhibition, To night.

Annie Abbott, "the Georgia wonder," gave a private exhibition of her powers at Dr. Pilsbury's, last night, before a number of physicians, newspaper men lawyers and and others of an inquiring turn.

Among those present were Drs. Allen, Kinney, Sprague, Purdy, Fancher, Hanmer, Douglas, Hardenburgh, and Connor and Messrs. Thos. Watts, J. L. Wiggins, N. M. Hallock, T. A. Weller, W. H. Rogers, C. J. Boyd E. D. C. Crane and a representative of the ARGUS

Before the exhibition, all sorts of theories were advanced to account for the woman's strange power. After the tests, there were fewer theories, and those who had tried to lift the woman when she did not choose to be lifted were the ones who were out of theories. They did not try to account for the woman's power. They simply gave it up.

Half-a-dozen men took turns in trying to lift Mrs. Abbott. It was easy enough until she touched them with the tip of a finger and then they might as well have tried to move the house from its foundations.

Little Hubert Pillsbury isn't much of a weight for a man to lift, but when Mrs. Abbott laid her hand on the lifter's hand the boy seemed as if rooted to the floor, and the utmost strength that could be exerted failed to budge him.

Some of those who had tried to lift Mrs. Abbott, not satisfied that they had had a fair chance to exert all their strength when they took hold of her by the waist, tried it again, crouching down and letting her rest on one of their shoulders, in much the same way as a sack of flour is carried. It was very easy to lift her in this way until she touched the lifter's face or neck with her finger tip and then, no matter how strong the man nor how hard he lifted, he could not move her.

The theory that by some kind of hypnotic suggestion Mrs. Abbott makes the lifter believe that he is exerting his full strength when in reality he isn't lifting a pound, is disproved so far as the writer of this is concerned by the fact that the shoulder on which he tried to lift the woman, last night, has ached ever since from the effort that he made to move an immovable body.

The most remarkable exhibition given by Mrs. Abbott of her power to overcome the laws of gravitation was afforded when she stepped on a platform scale, which Dr. Pillsbury had provided, and which recorded accurately the weights of persons present. After Mrs. Abbott, whose actual weight is only about ninety pounds, had been on the scales for a few minutes, she began to get heavier. Weight after weight was added till she tipped the beam at 400 pounds. She might have kept on till she weighed a ton if the scales could have recorded such a weight. Then she began to grow lighter and finally with all the weights removed the scale beam remained down, showing that she weighed less than nothing.

It's very strange and altogether beyond the power of any one who saw the exhibition to account for the woman's power. A public exhibition will be given at the Casino, to-night, and all who are interested in this mystery should attend.

Douglas, Mrs. McBrair and Misses Belle Wilcox, Mabel Hayes, Nettie M. Beakes, Anna May Bull and Madeline Quaid, of Newburgh. Mrs. C. H. Sweezy and Miss Claribel Pillsbury sang during the afternoon.

CARLISLE'S AMBITION.

He Hopes to Be Senator Blackburn's Successor From Kentucky.

According to a prominent Kentuckian who is close to Secretary Carlisle, that gentleman will be a candidate for the senate to succeed Senator Blackburn, whose term expires March 4, 1897, the day when Mr. Carlisle ceases to be secretary of the treasury. Mr. Carlisle will not be a candidate in the ordinary sense of the term, although he will probably go into the state and make some speeches, but as a dark horse he will be prepared to take advantage of anything that may turn up. Some of his friends understand what his hopes are in the matter and will do everything possible to bring about his election. It is well known that Mr. Carlisle has always regretted leaving the senate and will be only too glad to return to that body. Senator Blackburn, who hopes to be his own successor, realizes that he has the fight of his life upon his hands and is making every preparation for the most vigorous campaign he ever waged. He will travel over every part of the state and speak wherever he can find an audience, and in those places remote from railroads he will visit his constituents on horseback, stopping at farmhouses overnight, and entertain farmers' wives and admire the children. Blackburn is a magnetic sort of chap, witty and never at a loss for a clever reply or a graceful compliment, besides which he has a fondness for the three things for which Kentucky is famous—pretty women, a fast horse and good bourbon whisky.—Chicago Times-Herald.

WHAT'S IN A NAME?

William L. Wilson of Virginia Found His an Open Sesame to the Treasury Building.

Under the rule of the department the treasury building is not open to the general public after 2 o'clock in the afternoon. At each doorway is a watchman who admits only persons supplied with passes and officials who can identify themselves as entitled to special privileges. A member of congress or a cabinet minister, on presenting his card or stating his position, will be admitted. To other persons the watchmen are properly indifferent. One afternoon after 2 o'clock had struck and the doors were manned as usual a diffident looking man, with iron gray hair and flowing mustache, sought entrance and was denied admittance. He got in finally, and later on in the office of the comptroller of the treasury detailed his experiences.

"I started to tell the watchman I was a member of the house of representatives, but then I recollected it was after the 4th of March and the people of my district had neglected to send me back to represent them. Then I thought I would say I was a member of the cabinet. I had it on my lips, but felt the man might throw me down stairs. Of course I have been confirmed by the senate as postmaster general, but I will not qualify for some weeks yet. To tell the truth, I didn't know just how to satisfy that watchman, and it began to dawn on me I wasn't much of anything. So I just told him my name was William L. Wilson of West Virginia, and he let me in."—Chicago Tribune.

A Woman Commissioner.

Miss Emerson of San Francisco was appointed commissioner of the United States court of land claims a few days ago. The position is to some extent judicial. Commissioner Emerson will take testimony as an examining officer and will decide whether the statements made before her are relevant, competent and material or the opposite. Miss Emerson's appointment came about in this way: When Attorney Thomas Ball of Virginia was in California last summer, Miss Emerson proved herself a very valuable assistant to him in his investigations under the Indian depredation act. Together they made a tour of inquiry from Eureka to Los Angeles, and when Mr. Ball returned to Washington he carried with him a high opinion of Miss Emerson's abilities.

Exceptions Prove the Rule.

It does not exactly accord with our preconceived ideas of English earls to learn that a gentleman who has for some years earned an honest living as a bookkeeper in Toronto has been identified as the heir of the Scottish earldoms of Strathern, Monteith and Airth. It is of course possible that he may be a genuine nobleman, but he has not consorted with prizefighters, he has not married a skirt dancer or a money chest, and he seems to be wholly unconscious of what is expected of a hereditary legislator of Great Britain.—New York World.

Came Out With Colors Flying.

When Uncle Sam touched the pockets of the Jamaican Britishers by refusing to buy their coal at an exorbitant price, he went into an international complication and came out of it with full colors.—Boston Herald & Press.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but ***Constantly grows worse.*** There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and ***Don't know what to take for it,*** as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

"I had heart disease for 23 years, my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I ***couldn't lie down*** nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking ***Dr. Miles' New Cure for the Heart*** and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I hav'nt lost a day since. I am 56 years old, 6 ft. 4½ inches and weigh 250lbs. ***I believe I am fully cured,*** and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

THE PRESIDENT COMING TO MIDDLETOWN.

The Sick May Receive Medical Services Free of Charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middletown, on

Tuesday, April 9th, one day only. The sick and afflicted may consult them without charge during their stay.

If you are incurable they will tell you; therefore invalids must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The doctor visits Middletown one day each month. Will be at 67 Ball street, Port Jervis, Wednesday, April 10th. Office hours from 10:30 a. m. to 6 p. m.

QUEER EPISTLES.

A Specimen of the Sort Received In the President's Daily Mail.

President Cleveland's daily mail frequently contains some of the most remarkable communications that were probably ever indited, and if he acted upon the suggestions of one-third of them congress would be continued in session the year round and the tariff bill constantly undergoing revision. The greater part of the queer letters are from fanatics. The strangest of all letters was received a few days ago from a farmer living in one of the western states, who asks for an immediate session of congress to prevent a strike which he believes imminent among his laborers. This farmer says that a year ago he wrote to J. Sterling Morton, secretary of agriculture, for some rare varieties of seed and also requested that two "gondolas" be forwarded, as he believed that there was a field for profitably raising what he termed that valuable variety of animal in his locality. The seed, he avers, were sent and two strange looking birds, which have since produced a large flock that promises to steadily increase. The "gondolas," he says, are troublesome animals, and early in their career it became necessary to employ two laborers, at a cost of $2 a day each, to care for them. As the number augmented additional help was required until now the farmer has to call to his assistance quite a force of men to care for them. These men, with those employed around his farm, have threatened to strike, and the farmer asks that the president call congress to remodel this tariff law so that American labor may compete with cheap European workingmen. The "gondolas," the farmer asserts, have been at the bottom of the trouble.—New York Sun.

A SILVER ADVOCATE.

Senator Joe Blackburn of Kentucky Gives His Views on Bimetallism.

I have always been and am now and always intend to be in favor of the unlimited coinage of silver. I have been making this fight as earnestly and persistently as it was possible to do ever since it was demonetized in 1873 by what is known as the Sherman act. I believe that the single gold standard means inevitable bankruptcy and ruin to this country. I insist upon both gold and silver being retained as the money of the people, according to the provisions of the constitution. I have always opposed and always will oppose the single standard policy that England and Wall street have fastened upon this country for the sole purpose of robbing the masses of the American people to enrich the holders and hoarders of gold. My record is unbroken as an earnest, uncompromising advocate of the silver metal, and in the coming canvass in Kentucky I intend to force the fight on this line, and upon the record that I have made I am willing to stand or fall.

Strange Marriage History.

Mr. and Mrs. Edward H. Arnold of Brooklyn have recently attended the golden wedding of Mrs. Arnold's sister, Mrs. Charles Hart, in Providence. The Arnolds but recently celebrated their golden wedding and will, in Providence, meet two other sisters who have celebrated similar events. One other sister, Mrs. Powell of Hartford, has been married 41 years.

The four sisters who have seen so many years of married life are all members of the Jackson family, and their aggregate years of married life have been over 200.

In the Jackson family were 14 children. When the mother died, in 1887, she left a great-grandson 18 years old. Mrs. George Wheaton Jackson was the mother of 17 children—seven sons and ten daughters. Four of her daughters married members of the Angell family in Providence.

A New Idea to Stimulate Trade.

To the Editor of The Sun:

SIR—How would this do for an idea to stimulate trade? Let The Sun ask for men who will come forward and put down their names as agreeing to spend $100 in cash on any set day, say the 1st of May, for goods for their own consumption, such as clothes, hats, shoes, dry goods, etc., or see that some member of their family has the amount to spend in cash. One hundred thousand such men could put $10,000,000 in circulation at once. It might be called Booming day.

SAMMY OLD CONSTANT READER.

Capital. We call upon the 100,000 to promise to spend each his $100, and we hereby appoint April 10, the Wednesday before Easter, as Booming day, on which the said $10,000,000 must be spent.—New York Sun.

A Large Bottle.

At the Bordeaux exhibition the special feature will be the largest bottle ever made. It will be 115 feet high and divided into stories, in the lowest of which there will be a restaurant. A winding staircase will lead up the neck to a kiosk, taking the place of the cork, where there will be room for 35 persons at a time to sit and look over the exhibition grounds and the city.—Philadelphia Ledger.

Rebecca Wilkinson, of Brownsvalley, Ind., says: **"I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with no relief. I bought one bottle of South American Nervine, which did me more good than any $50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely medicine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." Warranted the most wonderful stomach and nerve cure ever known. Sold by J. E. Mills, Middletown, N. Y.**

AYER'S Cherry Pectoral

SAVED HIS LIFE

So says Mr. T. M. Reed, a highly-respected Merchant of Middletown, Ill., of a Young Man who was supposed to be in Consumption.

"One of my customers, some years ago, had a son who had all the symptoms of consumption. The usual medicines afforded him no relief, and he steadily failed until he was unable to leave his bed. His mother applied to me for some remedy and I recommended Ayer's Cherry Pectoral. The young man took it according to directions, and soon began to improve until he became well and strong."—T. M. REED, Middletown, Ill.

"Some time ago, I caught a severe cold, my throat and lungs were badly inflamed, and I had a terrible cough. It was supposed that I was a victim of consumption, and my friends had little hope of recovery. But I bought a bottle of Ayer's Cherry Pectoral, took it, and was entirely cured. No doubt, it saved my life."—I. JONES, Emerts Cove, Tenn.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "**Castoria**" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished **for 35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

DON'T STOP TOBACCO

It is Injurious To Stop Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being at least. I tried the so-called "Keeley Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured: I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly, C. W. HORNICK.

Dear Sirs—I have been a tobacco fiend for thirty-three years and during the past two years have used chewing tobacco very extensively. My nervous system being affected considerable. I have often tried to give up the use of tobacco, but always failed, until I bought three boxes of your "Baco-Curo." I used tobacco at the same time while taking "Baco-Curo," and after a week I lost the appetite for tobacco—smoking or chewing. I am enjoying better health, and consider your "Baco-Curo" the safest, most harmless and reliable remedy for to break the tobacco habit.

Yours truly, JOHN RODDEN,

Gentlemen—Last summer I furnished Mr James Reid, of the town of Burnside, Trempealeau Co., with three boxes of your "Baco-Curo." He had chewed tobacco for over forty years and the last year used over sixty-five pounds. He commenced using "Baco-Curo" and one box did not have the effect, when he had used about one-half of the second box, he began to lose his taste for tobacco, and when he had used one-half of the third box he had lost all his appetite for it, and is now entirely cured.

Yours truly, J. C. TAYLOR, Druggist.

TO WHOM IT MAY CONCERN.

This is to certify that I, William S. Sawyer of Atlantic, County of Cass, State of Iowa, having been an inveterate smoker of tobacco, bought three boxes of "Baco-Curo" Dec. 21, 1894. Began taking same according to directions and can say that I am completely cured of the tobacco habit. "Baco-Curo" is simply wonderful and I recommend it to all who are slaves to the tobacco habit and wish to be cured. I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remain, Yours truly,

WM. S. SAWYER, Atlantic, Iowa.

Clayton, Nevada Co., Ark., Jan. 28, 1 95.

Eureka Chemical & Mfg. Co., La Crosse, Wis.

Gentlemen—For forty years I used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition.

Yours respectfully, P. H. MARBURY,

WHAT MR. KRAEMER SAYS OF "BACO-CURO."

ATLANTIC, Iowa, Feb. 4, 1895.

This is to certify that I, F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of cigarettes for more than two years.

About eight weeks ago I bought three boxes of "Baco-Curo." I began taking it according to directions, and after taking one and one-half boxes, all the desire for cigarettes left me, and I have had no desire since.

I can heartily recommend "Baco-Curo" to all who are slaves to the cigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes, I could not remember anything; could not study, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craving for cigarettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason I could not do anything unless under the influence of the death-dealing poison found in cigarettes. I did not believe him at first, until he explained the action on the system. Then I bought the goods and thank God and all concerned, I am a sound person to-day. Hoping the same may reach the unfortunate cigarette smoker, I remain, Yours respectfully,

F. D. KRAEMER.

Much More Convenient.

An enterprising builder was one day in conversation with several friends when he was accused of using inferior materials in the construction of some villas which he had recently built. A hot argument followed, in the midst of which a gentleman arrived who lived in one of the villas, and the matter was referred to him.

"Well, gentlemen," said he, "I can assure you they are the most convenient houses I ever lived in. Why, when I first moved in I had to open the door to get into my bedroom, but now I can walk in through the cracks."—Tit-Bits.

Only Wanted to See It.

A very swell looking middle aged man, apparently every inch of what is termed a man of the world, entered a Broadway car coming down town at Twenty-third street. When the conductor came in for his fare, the swell looking middle aged man addressed him very politely, saying:

"Kindly let me know when we reach the Fifth avenue hotel."

The car rolled along. The street crossing leading to the entrance of the Fifth Avenue was reached, and the car was brought to a halt by the conductor. The swell looking middle aged man was sitting sideways gazing out upon the beauties of Madison square.

"Fifth Avenue hotel!" the conductor shouted in the door.

The swell looking middle aged man bolted around in his seat and began to stare at the big hotel.

"Fifth Avenue hotel!" shouted the conductor, again coming into the car. Then as the swell looking middle aged man did not move he added somewhat testily: "Here is the Fifth Avenue hotel, sir. Are you going to get out?"

"Why, no," responded the swell looking middle aged man surprisingly. "I only wanted to see the Fifth Avenue hotel. Heard so much about it, you know."

The passengers laughed in spite of themselves, and the conductor went back to his station and jerked the bell strap viciously.—Texas Siftings.

Romance.

The merchant prince knelt at her feet.

"And could you really love a poor orphan girl?"

The faint tremulousness of her voice touched his heart.

"Could I?"

He raised his head up and his eyes flashed.

"Well, try me a few!"

She did, and they lived happy together ever after, no cloud marring the bright skies of their love.

He had no female relatives living, either.—New York World.

Rural Hotel Note.

An Augusta man says he recently stopped in a village where the hotel had two large rooms, one for the men and one for the ladies. Half of each room was made into beds. He said there was a sign hung out on the porch, which read, "Persons wishing to take a bath will please notify Mr Jones half an hour beforehand so that he can have the creek dammed up."—Atlanta Constitution.

MEDAL CONTEST AT THE Y. M C A

The Senior Gymnasium Class Competition—The Prize Winners.

Last evening the senior gymnasium class of the Young Men's Christian Association held its annual contest. The judges were Dr. D. B Hardenburgh and Mr. E P. Haynes The successful contestants were John Duryea, first medal, Alexis C. McNulty, second medal; Clarence Eyres, third medal.

The young men show excellent development. Judging from the large attendance of young men in the audience, there is a growing interest in physical work, and the association should be encouraged in its efforts to cultivate this work.

THE ELECTRIC ROAD'S MILK CAR

To Begin Making Regular Trips, To-morrow—The Rates to Be Charged.

The milk car will begin, to-morrow, to make regular trips on the Traction Company's Goshen line, leaving that village at 7 a. m., and stopping anywhere on the line to take on milk. Platforms for the accommodation of shippers will be erected at the Owen and Smith crossings.

The freight charged will be ten cents per hundred pounds, condensery weight, and as the weight of a can of milk is eighty-five pounds, the charge is a trifle less than ten cents per can. As soon as the shipments reach 100 cans a day the freight will be reduced to nine cents per hundred pounds, and when 200 cans are shipped daily a further reduction to eight cents will be made. Empty cans will be returned free of charge.

As soon as 100 cans daily are shipped a switch will be laid on Canal street to the condensery. Until the switch is put in the milk will be taken on a truck from the car to the condensery.

WANTED HIS HEADLIGHT.

But Found It on Top of His Car Where It Belonged.

One of the new motormen on the electric road made his first trip on car 14, last night. He was in a great stew for a time because he had no headlight. He was afraid of a collision and tried to borrow a headlight from other motormen until he could run to the power house to get one. Finally some one gave him the information that his headlight was on top of his car and then he was satisfied.
